STEP 1 OF 16 · FOR DUMMIES VISUAL STEP

Activate Your Workspace (/start) or Start a 7-Day Free Trial (/trial)

SOLO | STUDIO | SOVEREIGN | DFY | SETUP | TRIAL

> **What you see on screen:** Immediately after purchasing any plan on Whop (Solo, Studio, Sovereign, Done-For-You $49/mo, or Executive CV Setup $19) — or signing up at /trial — you receive your private welcome link (/start?t=<check_token>). Opening it displays your Customer Photo Guides (Interactive HTML + PDF) and arms your 24-hour private setup link (/complete/<enroll_token>).

🎯 “FOR DUMMIES” SPEECH-BUBBLE & ARROW CALLOUT KEY ON THIS SCREEN

1. **CLICK YOUR PLAN OR 7-DAY TRIAL:** Choose Solo ($306), Studio ($613), Sovereign ($920), DFY ($49), CV Setup ($19), or Free Trial.
2. **OPEN YOUR PRIVATE /start LINK:** Click the personal /start onboarding link shown immediately after checkout or trial signup.
3. **PRINT & HAND-FILL SALES CONTRACT:** Download STPi-Customer-Sales-Contract.pdf, print, fill by hand in ink & email within 7 business days!

⚠️ **Stuck on Step 1?** Contact STPi Support FIRST (WhatsApp **+263 78 460 0904** or **simalidudu@gmail.com** / **tafadzwamchikanya@gmail.com**) before panicking or using random internet advice! Running to the public before contacting us results in immediate removal.

2. Starting a 7-Day Free Trial instead? Visit `https://stpi-mint.stpi-cloud.workers.dev/trial`, enter your practice name, your name, email, and primary country, and click **Start my 7-day trial**.
3. Download or open your **Interactive HTML Photo Guide** and **PDF Photo Guide** from the blue banner at the top of the welcome screen.
4. Click **private setup page** (`/complete/<token>`) to proceed to Step 2 and Step 3.

REAL EXAMPLE · AGENCY BUYER VS. TRIAL USER

• Studio Buyer: Thandiwe buys STPi Studio ($613/mo) on Whop using `placements@northstartalent.co.za`. She opens her `/start?t=...` link, enters `placements@northstartalent.co.za`, and clicks her armed `/complete/...` link.
• Trial User: Rudo signs up at `/trial` with `rudo@acaciacareers.co.zw`. Later, when she buys Solo on Whop with that same email, STPi automatically upgrades her trial workspace in place — keeping every candidate and draft.

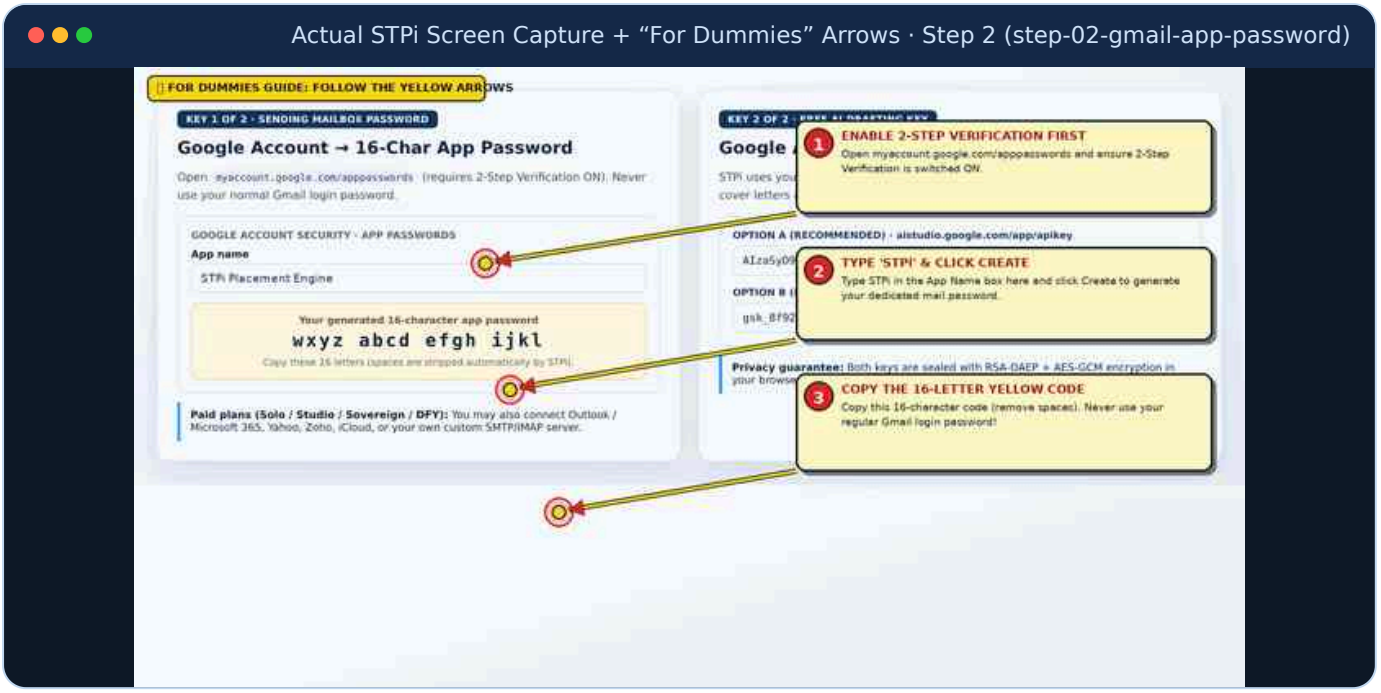

STEP 2 OF 16 · FOR DUMMIES VISUAL STEP

Create Your 16-Character Gmail App Password & Free AI Key (Gemini or Groq)

SOLO | STUDIO | SOVEREIGN | DFY | SETUP | TRIAL | DEMO

> **What you see on screen:** STPi sends applications from your own mailbox (so replies go straight to you and your candidate) and uses your own free-tier AI key (Google AI Studio Gemini or Groq) so you never pay per-draft markups.

🎯 “FOR DUMMIES” SPEECH-BUBBLE & ARROW CALLOUT KEY ON THIS SCREEN

1. **ENABLE 2-STEP VERIFICATION FIRST:** Open myaccount.google.com/apppasswords and ensure 2-Step Verification is switched ON.
2. **TYPE 'STPi' & CLICK CREATE:** Type STPi in the App Name box here and click Create to generate your dedicated mail password.
3. **COPY THE 16-LETTER YELLOW CODE:** Copy this 16-character code (remove spaces). Never use your regular Gmail login password!

⚠️ **Stuck on Step 2?** Contact STPi Support FIRST (WhatsApp **+263 78 460 0904** or **simalidudu@gmail.com** / **tafadzwamchikanya@gmail.com**) before panicking or using random internet advice! Running to the public before contacting us results in immediate removal.

STEP-BY-STEP INSTRUCTIONS

1. **Create your Gmail App Password (2 minutes):** Open `https://myaccount.google.com/apppasswords` (ensure 2-Step Verification is switched ON first). 2. **Create your Free AI Key (1 minute):** Open `https://aistudio.google.com/app/apikey` (Google Gemini — recommended) or `https://console.groq.com/keys` (Groq). Click **Create API key** — no credit card required — and copy the key (`AIza...` or `gsk_...`).
3. **Paid Plan Non-Gmail Mailboxes:** On Solo, Studio, Sovereign, Done-For-You, and CV Setup, you can also use Outlook / Microsoft 365, Yahoo, Zoho, iCloud, or your own custom SMTP/IMAP server.

REAL EXAMPLE · WHAT VALID KEYS LOOK LIKE

SOLO | STUDIO | SOVEREIGN | DFY | SETUP | TRIAL

> **What you see on screen:** The `/complete/<token>` page collects your brand name, primary country, contact details, sending mailbox credentials, AI key, and optional custom sender domain. All credentials are encrypted end-to-end (RSA-OAEP + AES-256-GCM) before leaving your browser.

⚠️ **Stuck on Step 3?** Contact STPi Support FIRST (WhatsApp **+263 78 460 0904** or **simalidudu@gmail.com** / **tafadzwamchikanya@gmail.com**) before panicking or using random internet advice! Running to the public before contacting us results in immediate removal.

STEP-BY-STEP INSTRUCTIONS

1. **Section 1 · Your business:** Enter your **Brand name** (printed on candidate CVs on Studio/Sovereign), select your **Country** across our 16 SADC + 5 East/Island markets (`ZA, ZW, ZM, NA, TZ, MW, BW, LS, SZ, XB, AO, KE, CD, RW, BI, UG`), and enter your name and WhatsApp number.

2. **Section 2 · Sending keys:** Select your mailbox provider (`Gmail` , `Outlook` , `Yahoo` , `Zoho` , `iCloud` , or `My own SMTP/IMAP server`), enter the mailbox address, paste your 16-character App Password, and paste your Gemini or Groq API key.
3. **Section 3 · Your own domain (Optional, Paid Plans):** Expand Section 3 if you want every candidate to send from `candidate.name@yourdomain.co.za` via free Brevo (300/day), SMTP2GO (1,000/mo), or your own SMTP server.
4. Tick the consent confirmation checkbox and click **Save and connect**.

REAL EXAMPLE · OWN-DOMAIN SENDING FOR AN AGENCY

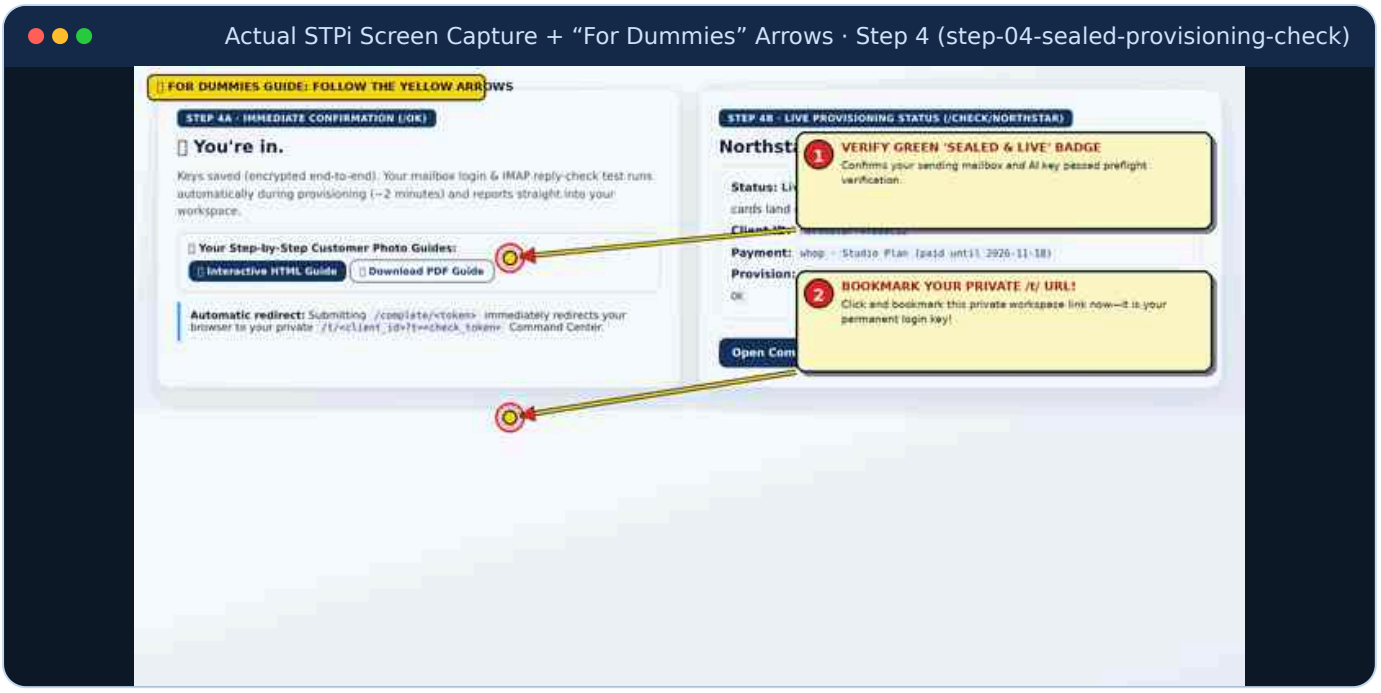

• Brand Name: `Northstar Talent` · Country: `ZA (South Africa)`
• Section 2 Reply Inbox: `placements@northstartalent.co.za` (receives all employer replies via catch-all)

STEP 4 OF 16 · FOR DUMMIES VISUAL STEP

Automatic Provisioning, Live SMTP Test & Redirect to Your /t/ Command Center

SOLO | STUDIO | SOVEREIGN | DFY | SETUP | TRIAL

> **What you see on screen:** As soon as you click Save and connect, your single-use `/complete/<token>` link is consumed, STPi dispatches the provisioning runner (`provision.yml`), tests your SMTP & IMAP login live, and redirects your browser straight to `/t/<client_id>?t=<check_token>` .

🎯 “FOR DUMMIES” SPEECH-BUBBLE & ARROW CALLOUT KEY ON THIS SCREEN

1. **VERIFY GREEN 'SEALED & LIVE' BADGE:** Confirms your sending mailbox and AI key passed preflight verification.
2. **BOOKMARK YOUR PRIVATE /t/ URL!:** Click and bookmark this private workspace link now—it is your permanent login key!

⚠️ **Stuck on Step 4?** Contact STPi Support FIRST (WhatsApp **+263 78 460 0904** or **simalidudu@gmail.com** / **tafadzwamchikanya@gmail.com**) before panicking or using random internet advice! Running to the public before contacting us results in immediate removal.

STEP-BY-STEP INSTRUCTIONS

1. Wait ~60–120 seconds while provisioning seals your tenant configuration and runs a live SMTP/IMAP login check against your mailbox.
2. Check your status anytime at `/check/<client_id>?t=<check_token>` or on the top status strip of your `/t/<client_id>` Command Center.
3. If your mailbox test shows a warning, open **Settings → Mailbox** in your dashboard to re-verify your 16-character App Password with one click.

1. **CLICK '04 SETTINGS' IN LEFT MENU:** Click Settings in the left navigation rail, then click the '+ Add profile' button.
2. **TYPE FULL NAME & REPLY EMAIL:** Type the candidate's full legal name and their reply email address in these two boxes.
3. **UPLOAD BASE CV & TARGET ROLES:** Attach your current CV (PDF, DOCX, or TXT) and type comma-separated target job titles.

⚠️ **Stuck on Step 5?** Contact STPi Support FIRST (WhatsApp **+263 78 460 0904** or **simalidudu@gmail.com** / **tafadzwamchikanya@gmail.com**) before panicking or using random internet advice! Running to the public before contacting us results in immediate removal.

STEP-BY-STEP INSTRUCTIONS

1. Click **Settings** in the left sidebar (or top mobile bar), then click **+ Add profile**.
2. Enter the candidate's **Full name** and **Email address** (they receive a Bcc copy and Reply-To on every approved application).
3. Click one or more **Countries they will hunt in** (`South Africa` , `Zimbabwe` , `Zambia` , `Namibia` , `Botswana` , `Kenya` , etc.), then click individual **Cities** or **All of <Country>**.

4. Type comma-separated **Job titles they want** (e.g., `Programme Officer, M&E Officer, Project Coordinator`) and **Titles to avoid** (e.g., `Director, Intern, Unpaid, Sales Rep`).

- Job titles they want: `Programme Officer, M&E Officer, Monitoring and Evaluation Specialist`
- Titles to avoid: `Director, Chief, Intern, Volunteer` · CV File: `Maya_Ndlovu_Base_CV.pdf`

STEP 6 OF 16 · FOR DUMMIES VISUAL STEP

Fine-Tune Search Keywords, Per-Country Job Boards (35 Boards) & Relevance Slider

SOLO | STUDIO | SOVEREIGN | DFY | SETUP | TRIAL

> **What you see on screen:** Clicking **Edit** on any candidate card opens the comprehensive single-screen Candidate Editor (`#pf-name`). Here you control identity details (including optional ZA ID number / driver's licence), multi-country locations, minimum relevance score (50%–90%), per-country job boards, and structured CV experience/education.

🎯 “FOR DUMMIES” SPEECH-BUBBLE & ARROW CALLOUT KEY ON THIS SCREEN

1. **EDIT WANTED & EXCLUDED KEYWORDS:** Type the exact roles you want here, and list excluded words (like Intern, Junior) below it.
2. **ADJUST MINIMUM MATCH SCORE:** Keep the relevance slider between 60% and 70% so only high-fit vacancies enter your queue.
3. **TICK YOUR COUNTRIES & JOB BOARDS:** Select any of the 21 African countries & 76 job board endpoints, then click Save Profile!

⚠️ **Stuck on Step 6?** Contact STPi Support FIRST (WhatsApp **+263 78 460 0904** or **simalidudu@gmail.com** / **tafadzwamchikanya@gmail.com**) before panicking or using random internet advice! Running to the public before contacting us results in immediate removal.

STEP-BY-STEP INSTRUCTIONS

1. On any candidate card in **Settings → Profiles**, click **Edit**.
2. Add or remove **Wanted job titles** and **Words to avoid** using the interactive chip inputs (`#addkw` , `#addav`). One well-chosen avoid word (like `Senior` or `Intern`) filters out dozens of noisy ads.

3. Adjust the **Minimum match score** slider (`#rg-min` , default `72%`). Lowering to `62%–68%` widens the funnel in smaller markets; raising to `78%+` keeps only tightly matched vacancies.
4. Select specific **Job boards** (or leave all ticked for full country coverage across all 35 board families: `PNet` , `CareerJunction` , `Careers24` , `JobMail` , `MyJobMag` , `VacancyMail` , `NGOJobBoard` , `ReliefWeb` , `Classifieds ZW` , `JobsZM` , `GoZambiaJobs` , regional newspapers, and remote boards).
5. Review or edit the structured **Summary**, **Skills**, **Experience**, and **Education** fields, then click **Save changes**.
